### **Disclosure of Interest and Educational Grants**

As an accredited provider of CME credit, ASCCP is required to comply with the ACCME's *Standards of Commercial Support* and has implemented a disclosure process to ensure that anyone who is in a position to affect the content of the educational activity has disclosed to us all relevant financial relationships with any commercial interest. ASCCP then discloses to learners any relevant financial relationship(s) to include the following information: 1) the name of the individual; 2) the name of the commercial interest; and, 3) the nature of the relationship the person has with each commercial interest. This information is published in the course syllabus, posted during morning announcements and also disclosed from the podium.
